## Typography Paramount

An imageless template focusing on Typography.

### Introduction

Hello and welcome to Typography Paramount, a light, nifty little template created by Six Shooter Media. This template has a slight twist to it and that is that it includes no images what-so-ever. This results in a page which loads lightning fast and displays consistently on various browsing mediums.

### About the Author

Hi! My names Jay and I'm a 20 year old web designer from England. My main projects are conducted through my website Six Shooter Media, but I (obviously) also enjoy creating Open Source web templates for general use! You can keep a check on my free templates [here](#) which is probably a link worth bookmarking as my templates appear there a couple of weeks before OWD/OSWD due to the design queues.

Another site of mine that you might find interesting if you're setting up a site with a free template like this is [Buy a Button](#). There, for a great price you can purchase a link to your site in the form of a button. This link will

## Toony, you say?

I've been getting word from various people that I have developed myself a style - Toony or cartoony or looney or whatever you want to call it! Reading these comments, I look back at some of my work and realise this is true - without meaning. So in future when designing websites I will gather some looney toony inspiration from around the place. Now I know posts have been few and far between,
